# Foreword from the Rector

Whether you are a student, researcher, administrative staff or someone interested in training, research, transfer and/or culture, I am pleased to welcome you to the University of Castilla La Mancha (UCLM).

Located in the heart of Spain, land of Don Quijote de la Mancha and cradle of the Spanish language, the UCLM develops its activity in campuses spread over four of the five provinces that make up the region of Castilla-La Mancha: Albacete, Ciudad Real and the World Heritage cities of Cuenca and Toledo.

I hope this guide will give you information and reasons that it will soon make you want to join this state university. An University where you will find innovative learning opportunities, with places to think and experiment that will lead you to face the uncertainties of a volatile, uncertain, complex and ambiguous world (VUCA world) and to offer answers to the great challenges of the 21st century.

In order to achieve the above, the UCLM offers a wide range of services:

- An International Excellence Campus based on the triangle of knowledge: education, research and innovation.
- Tradition and modernity in its open and accessible sites.
- A network of modern and nearby infrastructures that will connect you comfortably and quickly with the rest of Spain.
- Quality multidisciplinary training in an international environment with students from all over the world and a great culture of cooperation.
- With more than 280 research groups and 37 research centres and institutes where you can develop your projects.

- Language training through the Centre for Language Studies, where you can learn not only the languages of the Common European Framework (English, French, Italian, German) but also other languages of interest such as Arabic, Chinese and Japanese.
- Through Spanish as a vehicle for integration, you will achieve multiple employability opportunities to develop in an interconnected global environment, both locally and internationally.
- A cultural, sporting and leisure offer that gives the student the possibility of being part of the institution beyond academic life.

I firmly believe that being part of UCLM becomes a life experience.

Meet us and join our University Community of Castilla-La Mancha.

José Julián Garde López-Brea,  
Rector, University of Castilla-La Mancha (Spain)

# UCLM University of Castilla-La Mancha

**40**  
faculties/  
schools

**36**  
departments

**Founded in 1985, the University of Castilla-La Mancha is spread out over four main campuses within four provinces of the autonomous region of Castilla-La Mancha (Spain): Albacete, Ciudad Real, Cuenca and Toledo. In addition, there are two other university centres located in Talavera de la Reina (Toledo) and Almadén (Ciudad Real).**

Since its foundation as a public institution for higher education and research, our University now offers 67 Bachelor 's degree programs and 51 official Master 's degree programs, all of which are in accordance with the standards of the European Higher Education Area. In addition, UCLM offers a wide selection of post-graduate courses and doctorate programs.

There are currently over 25,000 students enrolled in the University with a staff of close to 2,400 professors and researchers. In addition, there are nearly 1,100 administrators and service personnel.

In addition to teaching, research constitutes another fundamental pillar of UCLM, with over 280 groups dedicated to research. UCLM currently collaborates with more than a thousand regional, national, and multinational companies. This joint collaboration is based primarily on the development of research projects that are of

interest for public and private industry. Furthermore, each year these companies offer internships and traineeship programs for students. Currently, there are more than 4,000 internships offered.

Internationally, the University maintains an affiliation with numerous academic centers throughout Europe, and also with several higher education institutions worldwide. This provides many opportunities for teaching and studying in a university community abroad.

The geographical location of UCLM has enabled the university to become a pioneer in the incorporation of new technologies. In addition, the UCLM's commitment to excellence can be seen through its outstanding reputation as one of the best universities in Spain. It ranks among the top fifteen Spanish universities in enrolment, R&D+i funding, and human resources and materials, having low dropout rate, and more library space for students.

## 5 key factors of UCLM

**international  
presence**

**unique and  
specialized  
studies**

**modern and  
innovative  
approach**

**high quality  
researchers  
and teachers**

**student-centered**

**4**  
campuses

**2**  
university  
centres

## Toledo

A city with one of the richest history in Spain. Muslims, Jews and Christians lived together in harmony here for centuries, leaving their indelible mark on Toledo's streets, monuments and buildings. Its old town was declared a World Heritage in 1986. This center sits majestically above the Tagus River and now, represents one of the most visited sites in all Spain.

UCLM has firmed up its presence in Toledo at two different campuses: the Faculties settled in the city's historical quarter and in the old Weapons Factory of Toledo and in Talavera de la Reina, another important city in the city network of the region.

## Ciudad Real

Founded by King Alfonso X in the 13th century, Ciudad Real has consolidated itself as one of the most important cities in La Mancha, the land of don Quixote. It is surrounded by beautiful natural landscapes included in the National Parks list.

The Ciudad Real Campus is located in the center of the city and is home to the Rectorate of the University.

About 100 kilometers away from Ciudad Real, in Almadén, stands the Higher Technical School of Industrial Engineering. It is the result of and also the tribute to the city's mining tradition, a mining district which includes the world's largest mercury mine, exploited in a practically continuous way since Romans times. Almadén was declared a World Heritage site in 2012.

# UCLM University of Castilla-La Mancha

## Cuenca

A city which touches all your senses. In 1996 Cuenca was declared by UNESCO a World Heritage City, for its wonderful preservation of the original urban setting with its medieval fortress, its rich civil and religious architecture dating from the 12th to the 18th Centuries and for the exceptional way the city is embraced by its beautiful natural surroundings. Cuenca is undoubtedly one of the most beautiful cities in Spain, where history, art, culture, urban and natural landscapes can all be found in one place.

The campus of Cuenca is situated in the outskirts of the city with a complex of buildings which preserves all historical and artistic tradition determined by the location of a large part of its facilities in a World Heritage City mixed with the most advanced technologies.

## Albacete

Located in the historic land of La Mancha and it is the largest city in the region. The Albacete campus can be described as a vast area covering public places and green zones, closely tied to the city's urban development and its consolidation in trade and industry. At the Albacete campus, all matters referring to university research and technology-transfer projects are coordinated.

# student body

**UCLM provides informational services, personalized attention to students with disabilities, and also manages grants and scholarships which give students the possibility of participating in work placement programs in various companies**

### **The students at UCLM**

The underlying aim of UCLM is to provide information and help to its students starting from the pre-enrolment process and throughout their course studies at UCLM. In addition, we continue to provide assistance to the students during their employment searching process once they've graduated, so that they are able to find employment related to their field of study.

In order to achieve this, there are a series of services built into the University's structure through which UCLM develops and coordinates its activities and programs. Most notably are the following: Services for Students with Disabilities, the Centre for Information and the Promotion of Employment, the University Counselling Service, the Sports Services...

Amongst the programs in place, the most representative of these are services such as: the information provided to teaching professionals as well as management of the University's teaching Centers; the coordination and management of UCLM admissions examinations; the channeling and processing of grants and scholarships awarded to students and student associations and unions; internship programs; and finally, the management of student placements in other Spanish universities or institutions.

### **University Counselling Service (SAP)**

[sap.uclm.es](http://sap.uclm.es)

This free and confidential service is designed to attend to the psychological needs of students and staff in relation to problems that may arise from adjustment, emotional difficulties, behavioural issues, study-related stress, etc.

Email: [saed.ab@uclm.es](mailto:saed.ab@uclm.es)

### **Service for Students with Disabilities (SAED)**

[saed.uclm.es](http://saed.uclm.es)

This service is designed to help students who have a disability or medical condition that may have an impact on their academic studies.

### **Centre for Information and the Promotion of Employment (CIPE)**

[cipe.uclm.es](http://cipe.uclm.es)

The mission of the Centre for Information and the Promotion of Employment (CIPE) is to:

- Facilitate our graduates' professional development.
- Help to improve employment prospects by providing career counselling and training.
- Setting up initiatives focused on bringing companies and students together.
- Following the professional development of our graduates.

Email: [cipe@uclm.es](mailto:cipe@uclm.es)

### **Internship and Employment**

[practicasyempleo.uclm.es](http://practicasyempleo.uclm.es)

Placements in companies or schools are a great opportunity for students to get to know the professional world better through first-hand experience. This part of the academic program provides students the opportunity to receive real life training in order to better prepare them for the world of work that awaits them. In this way, they are better able to witness the newest developments in their particular field of interest and see first-hand the inner workings of a company. Quite often newly graduated students have difficulty finding gainful employment due to a lack of practical knowledge and experience. The placement programs we offer serve to help those students acquiring the needed skills in order to cross the bridge from being University students to successful employees in the labor world.

Email: [cipe@uclm.es](mailto:cipe@uclm.es)

### **Accommodation**

There are residency halls available that are either private or funded by the regional and local governments. In addition, there is a variety of rented accommodation. UCLM will help students to find housing depending on students' preferences. Accommodation with a host family is also possible.

## International Double Degrees

### Double Degrees

- BBA Diploma “Bachelor Business Administration” (Le Groupe ESC Troyes, Francia) / Degree in Business Administration and Management (UCLM)
- Civil Engineering University Studies (Universidad Autónoma de Baja California) / Degree in Civil Engineering (UCLM)
- Degree in Jurisprudence (Degli Studio University of Sannio, Italia) / Degree in Law (UCLM)
- Degree in Civil Engineering (Universidad Autónoma de Yucatán, México) / Degree in Civil Engineering (UCLM)
- Degree in Building and Public Works Engineering (Université de Pau et des Pays de l'Adou, Francia) / Degree in Civil Engineering (UCLM)
- Degree in Jurisprudence (Degli Studio University of Messina, Italia) / Degree in Law (UCLM)

### Double Master's Degrees

- Master's degree in European and International Studies, speciality Franco-Spanish intercultural studies (Clermont Auvergne University, Francia) / Master's degree in Arts and Humanities Research (UCLM)
- Master's degree in Intercultural and International Studies, speciality Franco-Spanish intercultural studies (Blaise Pascal de Clermont-Ferrand University, Francia) / Master's degree in Arts and Humanities Research (UCLM)
- Master in Administration and International Exchanges by the Université Paris est Creteil (UPEC) France/ Master's Degree in Business Strategy and Marketing (UCLM)

### Mix Double Degrees

- Corso di Laurea Magistrale a ciclo único in Giurisprudenza (Università Degli Studi de la Campania Luigi Vanvitelli, Italia) / Degree in Law (UCLM)
- Master's degree in German Law for Foreign Students (Passau University, Alemania) / Degree in Law (UCLM)
- Corso di Laurea Magistrale a ciclo único in Giurisprudenza (Università degli Studi di Messina, Italia) / Degree in Law (UCLM)

## The International School of Doctorate

[eid.uclm.es](http://eid.uclm.es)

The International School of Doctorate of Castilla-La Mancha is in charge of managing, within its scope, the proper teachings and activities of the doctorate, and develop its own strategy linked to the research strategy of our university. Its organized as an Interdisciplinary School and offers eighteen doctoral programs for the completion of a thesis, all in line with the current legislation and positively evaluated by the national educational authorities. These programs cover the five disciplines: Arts and Humanities, Science, Health Sciences, Law and Social Sciences, Engineering and Architecture

and seven of these programs are offered through collaboration with other universities in Spain.

On one hand, it aims to encourage the specialization and internationalization of groups and centers with a proven track record in basic, experimental research, linked with the strategic priorities of the region. On the other hand, it also seeks to promote research in the fields of humanities and social sciences, as these are considered to be the areas of greatest importance in the interdisciplinary nature of applied research at our University.

## PhD Degree Programs

[www.uclm.es/estudiar](http://www.uclm.es/estudiar)

- PhD in Philosophy (inter-university)
- PhD in Research in Humanities, Art and Education
- PhD in Chemistry
- PhD in Green Chemistry (inter-university)
- PhD in Nanoscience and Nanotechnology (inter-university)
- PhD in Oenology, Viticulture and Sustainability (inter-university)
- PhD in Physics and Mathematics (inter-university)
- PhD in Health Sciences
- PhD in Neuroscience (inter-university)
- PhD in Public Health Research and Physical Activity
- PhD in Law
- PhD in Quantitative Economics and Finance (inter-university)
- PhD in Economics and Business
- PhD in Advanced Information Technologies
- PhD in Agricultural and Environmental Sciences
- PhD in Chemical and Environmental Engineering
- PhD in Science and Technologies Applied to Industrial Engineering
- PhD in Territory, Infrastructure and Environment

# Lifelong learning

## The Postgraduate Studies Centre

[cep.uclm.es](http://cep.uclm.es)

The Postgraduate Studies Centre is in charge of the organization, promotion, quality, monitoring and execution of the strategy and offer of postgraduate studies at the University of Castilla-La Mancha, guaranteeing for the suitability, quality, competitiveness and internationalization of these studies in the academic and professional fields. The PSC assumed as main function to respond to the demand for an updated, specialized and quality lifelong learning, helping to transmit knowledge to society.

Postgraduate studies are becoming increasingly important, offering a high level of specialized training that also responds

quickly to the needs of the labor market and the interest to recycle and complete their training of students and professionals. Which, as their own courses, are taught by university professors as well as by professionals of renowned prestige

The objective of professional specialization lets create more than 100 own titles every year. The specific titles include the different fields of knowledge (Arts and Humanities, Sciences, Health Sciences, Social and Legal Sciences, Engineering and Architecture) and are taught in different campuses (Albacete, Ciudad Real, Cuenca and Toledo).

# Internationalization

## Language Teaching Centre (CEL)

[centrodelenguas.uclm.es](http://centrodelenguas.uclm.es)

The Language Centre (CEL) of the University of Castilla-La Mancha, attached to the Vice-Rectorate for Internationalization, has a firm commitment to multilingualism, not only in the university community, but also in society in general.

The two main lines of action of the CEL have to do with language training and language accreditation. The CEL has an extensive language courses offering, through its Learn Languages Program, which includes in-person and online courses in English, French, Italian, German, Japanese and Arabic, in addition to teaching Spanish as a foreign language.

On the other hand, the CEL regularly organizes tests, highlighting, in English, the CertAcles seal for levels B1, B2 and C1, awarded by the Association of Language Centres in Higher Education (ACLES), and in French, the DELF-DALF, being the Language Centre of the UCLM the only one recognized at the regional level. Aimed at international university students, the SIELE exam, promoted by the Cervantes Institute among other prestigious institutions, is offered.

## Confucius Institute at Castilla La-Mancha University

[confucioclm.uclm.es](http://confucioclm.uclm.es)

The Confucius Institute at Castilla La-Mancha University established in April 2017. Cording to the tripartite Agreement among Confucius Institute Headquarters (Hanban), Castilla-La Mancha University and Nanchang University for the Establishment of the Confucius Institute, it is a non-profit public institution, which aim to promote Chinese language and culture in Castilla La-Mancha autonomous region of Spain.

The Confucius Institute at Castilla-La Mancha University adopt flexible teaching patterns and adapt to suit local conditions when teaching Chinese language and promoting culture in primary schools, secondary schools, communities and enterprises.

The functions of CI UCLM include teaching activities, providing with the support and services of teaching resources, training Chinese teachers, recommending Confucius Institute scholarship and organizing Chinese tests such as HSK, HSKK, YCT etc. It has provided for people of the Castilla La-Mancha region to learn about Chinese language and culture. In addition, it has become a platform for cultural exchanges between China and Spain as well as a bridge reinforcing friendship and cooperation between China and Spain.

## ADRIT UCLM Programme

UCLM has launched the ADRIT program, aimed at attracting, developing and retaining international talent at all university campuses. Within the framework of this educational excellence program promoted by the Spanish Ministry of Education and Vocational Training as part of its Foreign Educational Action, the initiative includes first-year tuition bonuses and individual grants for students of the Spanish Bilingual Sections located in Europe.

## Study Abroad at UCLM

[internacional.uclm.es](http://internacional.uclm.es)

The Study Abroad is an original initiative of the UCLM with which we intend to organize short duration courses (4 weeks as maximum) that are focused on particular fields of knowledge such as Engineering, Spanish Language and Culture, Environment, amongst many others. The UCLM has a wide offer of these programs concerning different academic disciplines and fields. Moreover, these courses provide an assorted cultural programme that will let students both improve their learning process and know better our country and our region. These programs are one of the key projects in our internationalization strategy and by means of these courses, the participants will have, not uniquely the occasion to enlarge their knowledge and expertise, but also to learn about the Spanish language and culture. With regard to the courses' structure, these are focused on experience and theoretical education equally. Thus, the University of Castilla-La Mancha wants to proffer the most complete educational experience to the students that decide to take these courses.

## Spanish Language at UCLM

[centrodelenguas.uclm.es](http://centrodelenguas.uclm.es)

The teaching of Spanish language and culture in Castilla-La Mancha is one of the main activities of the cultural offerings of the UCLM and one of the pillars of internationalization of our institution. These programmes annually develop general and specialized international courses, in addition to numerous initiatives for learning Spanish language and culture with training programmes in specific areas such as business, engineering, public health, law, humanities, etc.).

- Summer intensive courses
- AUNA Program
- Spanish courses for foreigners
- Spanish courses for Specific purposes
- Spanish course for DELE Exam
- Spanish course for ELE teachers

Moreover, the UCLM was accredited by the Cervantes Institute, recognition which values the high quality of these courses.

## Study Abroad courses (All these courses are designed according to the specific needs of the Universities which could be interested in)

Spanish Language and Cultures	Business course	The Spanish Healthcare system	Economy and Spanish culture	New Perspectives and Technology for Environmental Sustainability	The Quality of Agricultural Products	Sustainable irrigation Water Management

# Research

**UCLM is a Spain leader of university research in the domain of Veterinary and Energy Science & Engineering. According to the ARWU ranking, Veterinary Science at UCLM has reached the 3th position in Spain and the 40th at world level, whereas Energy Science & Engineering is ranked among the 200-300 universities in the world.**

The University of Castilla-La Mancha was recognized by the General Secretary of Universities, with a rating of “Campus of International Excellence” for its project CYTEMA: An Energy and Environmental Science and Technology Campus. This ambitious project seeks excellence in education and research, which could be transferable to the public and private sector.

The 2019 edition of the ranking THE keeps the University of Castilla-La Mancha (UCLM) among the top 1000 universities in the world. It is also ranked 29 among 83 universities within the Spanish university system. Reforms and changes in research policy over the past ten years have allowed for greater collaboration with other research institutes. With these links, research can be done either outside the university or within the university itself.

The Campus of International Excellence, the Project CYTEMA (Science and Technology Campus for Energy and Environment) is a clear challenge for teaching, research and knowledge transfer in energy and environment, which take advantages of the strengths of the Research, Development and Innovation for energy and environment within our university (37 research institutes and 283 groups of research) like highlighted in the report of the FECYT which position our university at the first place of excellence university research in energy.

UCLM is placed in an excellent position in the main national and international rankings that include R&D+I indicators. This is due to the support of emergent research groups, the training of our personnel, and the amount of grants given to increase the number of researchers in relevant international institutions. In addition, technical and financial advice is given in order to promote UCLM's participation in European competitions. Finally, another key factor is the sharing of technology development by UCLM with the public and private sector.

## 4 key factors in research at UCLM

### 37 research centers

Centre of Experimental Creation (Cuenca) / Studies Centre for Castilla-La Mancha (Ciudad Real) / Joint Centre for Studies and Documentation of International Brigade (CEDOBI) (Albacete) / Centre of Studies for Promoting Reading and Early Childhood Literature (CEPLI) (Cuenca) / Centre of Consumer Studies (CESCO) (Toledo) / Centre of European Studies (Toledo) / Centre of Social Healthcare Studies (CESS) (Toledo) / Centre of Ibero-American Territorial Studies (CETI) (Ciudad Real) / European and Latin American Centre for Social Dialogue (CELDS) (Ciudad Real) / Regional Institute for Applied Scientific Research (IRICA) (Ciudad Real) / Centre of Criminal Research (Albacete) / International Centre for Fiscal Studies (CIEF) (Toledo) / Regional Centre for Water Studies (CREA) / Regional Centre of Biomedical Research (CRIB) (Albacete) / Toledo School of Translators (Toledo) / Almagro Institute of Classic Theatre (Ciudad Real) / Botanic Institute (Albacete) / Institute of Environmental Science (ICAM) (Toledo) / Institute of European and International Criminal Law (Ciudad Real) / Institute for Regional Development (Albacete) / Institute of Applied Geology (IGeA) (Ciudad Real) / Institute of Audiovisual Technologies (ITAV) (Cuenca) / Institute for Neurological Disabilities Research (IDINE) (Albacete) / Institute for Renewable Energies Research (IERI) (Albacete) / Institute of Computer Science Research (Albacete) / Institute of Industrial Applications and Energetic Research (INEI) (Ciudad Real) / Institute of Applied Mathematics in Science and Engineering (IMACI) (Ciudad Real) / Institute of Nanoscience, Nanotechnology and Molecular Material (INAMOL) (Toledo) / Institute of Conflict Resolution (IRC) (Ciudad Real) / Institute of Chemical and Environmental Technology (Ciudad Real) / Institute of Technology and Information Systems (Ciudad Real) / International Museum of Digital Electrography (MIDE) (Cuenca) / Enrique Castillo Institute of Research in Civil Engineering and Architecture (IEC) (Ciudad Real) / Institute of Research in Atmospheric Combustion and Contamination (ICCA) (Ciudad Real) / Institute of Applied Research to the Aeronautical Industry (INAIA) (Toledo) (in constitution) / Building Research Institute (Ciudad Real) (in constitution) / Institute for Game and Wildlife Research (IREC) (Ciudad Real)

# University life

Over recent years, the University has also promoted different concert series in which have included various genres of easy-listening and classical music. Some of these events have included prize winners of prestigious awards such as “Principe de Asturias” and other national awards.

The cultural programs are constantly updated and they are advertised through the internal TV channel, as well as in the University’s information points.

Sports, performances, concerts, lectures, conferences, courses and workshops, exhibitions, open days, prizes and contests, seminars.

### **Centre of Cultural Initiatives**

The University of Castilla La Mancha counts on the participation of the Centre of Cultural Initiatives to promote the cultural activities at the university world. The main aim is to spread the culture and acquire knowledge for students through: workshops, meetings, concerts, conferences, expositions or different cultural activities.

### **University Sport**

The University of Castilla La Mancha promotes the University Sport for those students who want to complement their academic training with the practice of a sport in their free time. It offers a lot of different activities such as university sports competitions or national championships such as The Rector’s trophy. The University also offers a wide program of leisure time which is adapted to the demands of the students.

The UCLM has marvelous sports facilities adapted to the different activities.

It is also important the offer of scholarships to collaborate with the Sport Services. The scholarships allow the student complement their studies with their labor as a collaborator of the sport activities.

More information at:

<https://www.uclm.es/misiones/culturadeporte/deporte>

**At the UCLM, there is an intense cultural focus in all of the University campuses. The university continually holds exhibitions, concerts, lecture series, cinema club, and book readings and there are cultural classrooms located on the campuses in order to promote cultural activities and the participation of the general public.**

### **Summer Courses**

The UCLM seek to ensure the learning of the students helping them holding a wide variety of summer courses. Specialists of different disciplines will provide the students the learning tools for the discussion of different political, social, cultural or scientific aspects of nowadays. These programs offer a wide variety of courses which can be taken by the whole community of Castilla La Mancha.

### **University Debate League**

The University of Castilla La Mancha has developed in all their campuses a University Debate League which has been held for 8 editions. The objective of the debates is to foment the dialogue and defend the ideas in public by the students, which could make the student develop social abilities, analysis of the information, oral expression, listening attitude and speed reply by collaborative work.

### **University Program for Elder Students**

This interesting program offers academic training for people over 50 years with higher studies or not and who want to keep learning (professionals in active employment, retired, pre-retired, housewives, etc.). Through a wide offer of subjects of different disciplines (Literature, Law, History, Health Sciences, Computing, Sociology, Nature and Environment, Economic Sciences, History of Arts, Psychology, Philology, Philosophy and English) and the complementary activities like workshops, colloquiums, conferences or seminars.

# Facilities and heritage

## Heritage

Despite its youth, the University of Castilla-La Mancha enjoys a rich historic-artistic and environmental heritage on its campuses. Our University has campuses in three World Heritage Sites: Almaden, famous for its mining complex, Cuenca, which has a marvelous old quarter and Toledo, one of the most visited cities in Spain.

In Toledo, various academic institution centers are located in architectural gems such as San Pedro Martir convent, Lorenzana Palace or the Sabatini building.

Our unique buildings are a testimony of the Spanish History. All of them have been renovated over the years, but they have always maintained their charm with the purpose of housing the educational and research activity of UCLM.

In Albacete, the most populated campus in Castilla-La Mancha, university students may enjoy spacious green areas and one of the most accessible urban designs in the whole of Spain. Modernity and tradition go hand in hand in this city.

Moreover, the Ciudad Real campus is situated in the only province of Spain which has two national parks, two essential get-aways for those who live in this university city which is accessible, modern and has excellent communication.

In addition, there is a large collection of important paintings, sculptures, photographs, drawings and other historical items of interest at UCLM.

## Campus Facilities

■ **18,200 m<sup>2</sup>**  
of general sports facilities

5  
gyms

2 indoor  
swimming  
pools

1 athletics  
stadium

tennis and  
padle courts

4 campuses and 2 satellite campuses that offer **440,000 m<sup>2</sup>**

## Board of governors

### **Rector (President)**

José Julián Garde López-Brea

### **Vice-Rector of Finance and Planning**

Francisco José Sáez Martínez

### **Vice-Rector of Academic Staff and Professional Development**

Ana Isabel Briones Pérez

### **Vice-Rector for Science Policy**

Antonio Mas López

### **Vice-Rector Postgraduate Studies and Lifelong Learning**

Santiago Gutiérrez Broncano

### **Vice-Rector for Studies Quality and Accreditation**

José Manuel Chicharro Higuera

### **Vice-Rector for Students**

Ángeles Carrasco Gutiérrez

### **Vice-Rector of Culture, Sports and Social Responsibility**

César Sánchez Meléndez

### **Vice-Rector for Innovation, Employment and Entrepreneurship**

Ángela González Moreno

### **Vice-Rector for Health Sciences**

Alino José Martínez Marcos

### **Vice-Rector for Internationalization**

Raúl Martín Martín

### **Vice-Rector for Coordination, Communication and Promotion**

Leonor Gallardo Guerrero

### **Vice-Rector for Transformation and Digital Strategy**

Ismael García Varea

### **Vice-Rector for Sustainability and Infrastructure**

Inmaculada Gallego Giner

### **Secretary-General**

Isabel Gallego Córcoles

### **Head of Personnel Management**

Matilde Yebra Gago
